Manpower is Important!

- **As a Unit CO, always be mindful of the following:**

  Bodies = Resources = Operational Support to the Supported Command = Unit success

  = Your success as a CO

- **RUAD is your primary manpower management tool; scrub it frequently and keep it up to date**

- **Two types of RUADs**
  - **NSIPS generated**
  - **BIL/PERS (RHS) generated → BIL/PERS is ground truth**

Assess (ARRRRT)

- **How many personnel are locally assigned, CAI, CAO, or IAP? How many billets are vacant?**

Enlisted

	ALLOW	LOC ASGN +	CAI =	TOT ASGN	LOC ASGN +	CAO +	IAP =	ON BD
TOTALS:	36	2	31	33	2	12	77	91

» 3 Vacancies (ALLOW – TOT ASGN)

Officer

	ALLOW	LOC ASGN +	CAI =	TOT ASGN	LOC ASGN +	CAO +	IAP =	ON BD
TOTALS:	2	0	1	1	0	0	3	3

» 1 Vacancy (ALLOW – TOT ASGN)

Re-organize (ARRRRT)

- **Move anyone "below the line" (CAO, IAP) into eligible billets "above the line" (CAI, Vacant)**

Look for exact matches first (NOBC/NEC, rate/designator, paygrade), then substitutions using RFAS codes

Priority	NOBC/NEC	DESIG/Rating	Paygrade
(1)	Match	Match	Match
(2)	Match	Match	RFAS
(3)	Match	RFAS	Match
(4)	Match	RFAS	RFAS
(5)	RFAS	Match	Match
(6)	RFAS	Match	RFAS
(7)	RFAS	RFAS	Match
(8)	RFAS	RFAS	RFAS

Bump CAI if required (local billet holder is almost always better than someone remotely CAI)

Recruit (ARRRRT)

- **Make a “shopping list” of vacant or CAI billets**
- **Visit the RESCEN N1 on a weekday when things are quieter and review the local RUADs looking for eligible CAO and IAP personnel**

  Capture anyone who can fill a billet on your shopping list; discuss possible transfers with N1
- **Contact your fellow CO’s of sister Units to see if they have any CAO or IAP personnel who can fill your vacant billets; ask them to go shopping for you at their Center, as well**

  E.g., you need an IT2, your sister Unit doesn’t have one, but there is an IT2 who is IAP within your sister Unit’s RESCEN ➔ Transfer the IT2 to your sister Unit and CAI to your vacant billet

  In this scenario, the new IT2 is assigned to the same Supported Command with the same training and AT/IDTT requirements

Relax RFAS (ARRRRT)

- **Review the RFAS codes and CNRFINST 5320.1C for greater substitution flexibility**

  E.g., you have an STS2 who is IAP but you have a vacant IT2 billet with RFAS Code 6AJE ("AJ" = ET or FC) ➔ Request RFAS Code change to 6ALE ("AL" = ET, OS or ST)

- **Discuss potential changes with your Supported Command; make your case and get their buy in**
- **Per CNRFINST 1001.5D, forward requests to change RFAS codes for specific mobilization billets, via/from supported command, to CNRFC (N13)**

Transfer (ARRRRT)

- **Make a "shopping list" of remaining IAP personnel**
- **Visit the RESCEN N1 on a weekday when things are quieter and review the local RUADs looking for CAI or vacant billets that your IAP personnel can fill**
  - **Have a copy of the RFAS Instruction in hand**
  - **Discuss possible transfers with N1**
- **Contact your fellow CO's of sister Units to see if they have any CAI or vacant billets that your IAP personnel can fill**
  - **E.g., you have an IT2 who is IAP, your sister Unit has a vacant IT2 ➔ Cross assign out the IT2 to your sister Unit**
- **The goal is to minimize the number of IAP personnel**

Contact CAI Personnel

- **Using RSTMPS, locate the NRA for every member cross assigned into your unit (search on SSN)**
- **Using the CNRFC Directory, look up the phone number or e-mail address for the NRA**
- **Contact the NRA N1, explain that one of their local drillers is cross assigned into (CAI) your unit, and you need contact info for the member's local CO**
- **Send a letter or e-mail to CO explaining TRUIC responsibilities (e.g., AT/IDTT scheduling)**

Other Considerations

- **Visit and get to know the regional recruiters; brief them on your unit and its capabilities; let them know your needs (leave them your business card)**
- **Review the REDCOM excess personnel and vacancy lists**
- **Keep your Unit Profile up to date for recruiting purposes**

Summary

- **As Unit CO, you “own” the RUAD**
- **Your success is partially dependent on unit manning (manning is a readiness function)**
- **Don’t expect someone else to manage your RUAD; develop a get well plan to fill any vacant billets and move IAP personnel into hard billets**
